

## Company Overview

Kestrel Management Services, LLC is a consulting firm that provides industry with services in the design and improvement of management systems and sustainability, enterprise risk and liability management, and process improvement.

Led by a team of principals and senior consultants averaging over 30 years of hands-on experience, we have the talent and know-how to understand and meet client needs. We focus on business results.

Kestrel consultants serve clients in a broad range of industries including the chemical, manufacturing, metal casting, petroleum, pulp and paper, transportation, and utility industries.

### **Serving Clients Through Direct Involvement**

Kestrel's team of principals, consultants, and project managers have extensive hands-on industry experience in the areas of:

- Quality
- Environmental
- Safety and health
- Energy
- Sustainability
- Security
- Process improvement
- Building science
- Regulatory strategy
- Risk and liability management
- Compliance support
- Business management
- Information technology
- Training

Kestrel's principal owners are directly involved in serving clients on a national and international basis. They are supported by a strong team of consulting experts. When more staff resources or additional specialized expertise are needed, we use a select group of capable teaming partners, resulting in the best value for our clients. Resumes are available upon request

## Company Overview

### What's in a Name?

#### **Efficient, Focused Service Delivery**

We chose the name Kestrel because it symbolizes the characteristics we believe are important for serving industry needs—swift, nimble, and efficient service delivered with a focused, clear vision.

Our consultants work closely with clients to understand their organization's operating philosophy. We ask the right questions to examine business and operating challenges, goals, objectives, and requirements. Then, we work with clients to structure and implement comprehensive solutions to effectively meet their business needs and expectations.

### Kestrel Affiliates

**Aerie Technologies, LLC** provides organizations with electronic software to streamline and improve the efficiency and reliability of audits and inspections, control management system documents and compliance, and manage environmental, health, and safety monitoring data. **mSolve Services** include specialized building science solutions to reduce moisture-related risks and costs in buildings and to improve energy efficiency.

### Clients Served

#### **Committed to Client Confidentiality**

Kestrel serves clients in a broad range of industries, including:

- Bioscience
- Chemicals
- Communications
- Construction
- Distribution and supply
- Electronics
- Food processing
- Healthcare
- Manufacturing
- Metal casting
- Oil and gas
- Pulp and paper
- Railroads
- Semiconductor
- Transportation
- Utilities

Due to the nature of the work we perform, requirements often mandate that we not share the names of clients with the public. We respect and honor our clients need for confidentiality.
